

~~SECRET~~

10 February 1981

MEMORANDUM FOR: Chief, Policy and Plans Group

25X1 FROM:

[REDACTED]  
Chief of Operations (PTOS)

SUBJECT: Entries for DDA Log  
5 - 11 February 1981

25X1

5. An investigation was conducted to determine who was responsible for dropping an Agency classified document which was found in the Pentagon parking lot on 27 January 1981. In coordination with the appropriate element of the Department of Defense, it was subsequently determined that an analyst for the Defense Intelligence Agency was the guilty party. Appropriate administrative action has been promised. (U)

9. On 5 February 1981, the 136th meeting of the Computer Security Subcommittee, National Foreign Intelligence Board (NFIB) convened. Discussion centered on whether to revise existing DCID policy from the "top down" or approach it by way of a technical implementing document with very little policy revision. Members, after much discussion, voiced preference for a total policy review and revision. Member agencies are now submitting their respective recommendations. (U)

10. On 5 February 1981, two representatives of ISSG attended a briefing given by NSA on the current status of the Project. This project, which provides end-to-end encryption for transmitting data within and between ADP systems and networks, is being developed for Project SAFE and appears to have applicability to other existing and proposed Agency information systems.
